

Small Project Blocks

14" Skinny Robin or Fat Robin Compass Sunflower

Strips cut using the OctaCompass table on Page 4 of the OctaCompasses (4th) chapter of either your Skinny Robin or Fat Robin Book.

Cutting from this table will give more room around the perimeter of your raw block for finishing into the various Small Projects.

Make sure to read Page 1 in your book. You will want to use more of a true $\frac{1}{4}$ " seam than a scant, and don't use steam or moisture when pressing in the construction of the raw block.

OR

14" 16-Point Skinny Robin Compass Sunflower Block

	Background Strip 2 strips x 4"
	Point 1 Strip 2 strips x 2"
	Point 2 Strip 2 strips x 2½"
	Inside Point 3 Strip 1 strip x 2"
	Center 1 square x 5"

14" 16-Point Fat Robin Compass Sunflower Block

	Background Strip 1 strip x 4"
	Point 1 Strip 1 strip x 2½"
	Point 2 Strip 2 strips x 3¼"
	Inside Point 3 Strip 1 strip x 2¾"
	Center 1 square x 6½"

Compass Sunflower block construction instructions begins on Page 2 of the Companion Compass Blocks (2nd) chapter of either your Skinny Robin or Fat Robin Book.

Center will be finished using the reverse appliqué technique. See Step 11 on Page 4 in the Companion Compass Blocks (2nd) chapter "For reverse appliqué center" and Page 4, Step 13 "For Reverse Appliqué Center" from either your Skinny Robin or Fat Robin Book.
