

## Small Project Wallet

Made using the Small Project 14" Skinny Robin or Fat Robin Compass Sunflower block.

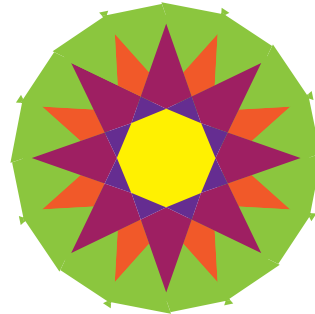

### Construction

- 1 Make the Skinny Robin OR Fat Robin 16-point 14" Compass Sunflower Block following the instructions starting on Page 2 in the **Companion Compass** (2nd) chapter of my Skinny Robin or Fat Robin 16-Point Book. **Note: Strips are cut for a 14" OctaCompass Sunflower from Page 4 of the OctaCompass (4th) chapter of your Skinny Robin or Fat Robin Book for an OctaCompass Sunflower. Center finished using the reverse appliqué technique.**

14" 16-Point Fat Robin Compass Sunflower Block

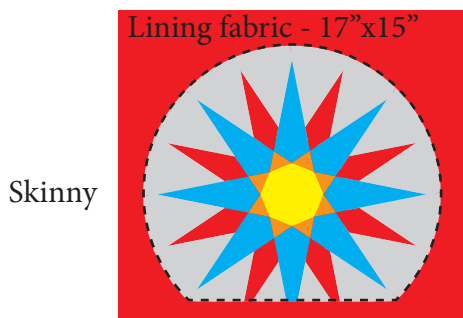

- 2 Make a 15½" freezer paper circle template following the instructions in the Finishing (3rd) chapter on Page 2. Center the freezer paper template on your block with the template N, S, E, and W folds lined up on the block N, S, E, and W points, and press into place. Trim block flush with the freezer paper template.

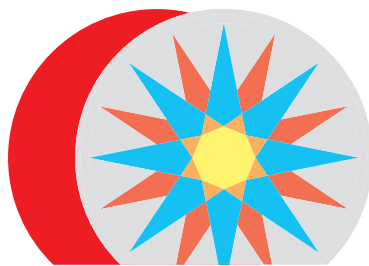

- 3 Measure up 2¼" from the center bottom of the block and trim off perpendicular (90°) to the N and S points.

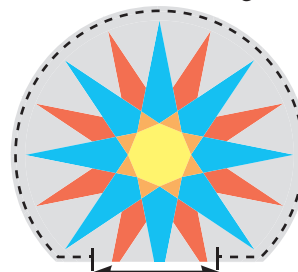

- 4 Use your trimmed block for the pattern to cut out the lining fabric for your wallet. Sew your block and lining together with right sides together using  $\frac{1}{4}$ " seam and leaving open on the bottom straight edge for later turning.

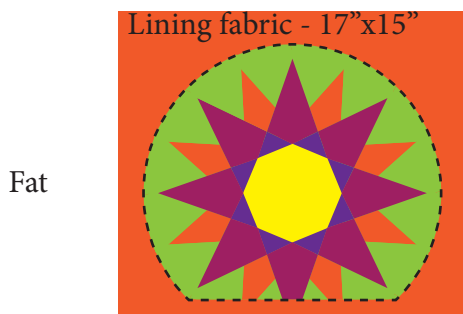

Place lining and block with right sides together

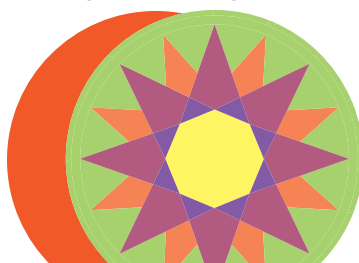

Sew with  $\frac{1}{4}$ " seam leaving bottom straight edge open of later turning

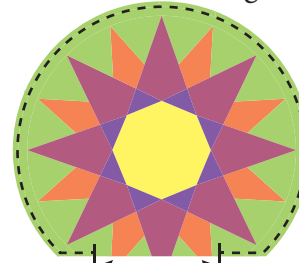

Leave opening

Place lining and block with right sides together

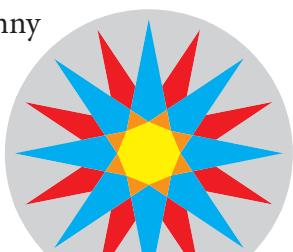

Sew with  $\frac{1}{4}$ " seam leaving bottom straight edge open of later turning

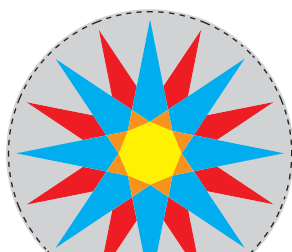

Leave opening

- 5 Turn block and lining right side out, pushing finished edge out all the way to the seam. Press block from the back, slightly pulling the lining toward the back and making sure the lining won't show on the front. Turn under edges  $\frac{1}{4}$ " at opening, and then edgestitch around entire perimeter of block.

Skinny

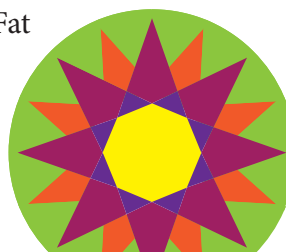

Turn edges under  $\frac{1}{4}$ " at opening

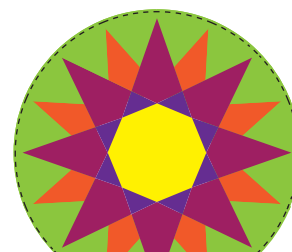

Edgestitch

Fat

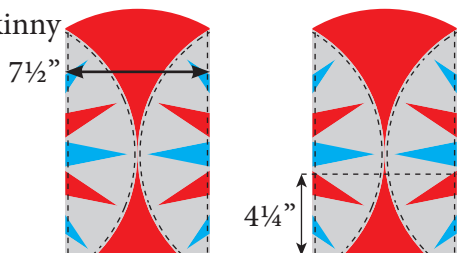

Turn edges under  $\frac{1}{4}$ " at opening

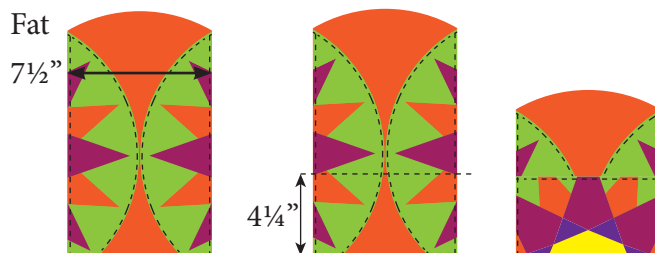

Edgestitch

- 6 Fold the block sides inside to the lining side so that they meet in the middle and sides are  $7\frac{1}{2}$ " apart. Edgestitch along the folded edges. Fold the bottom up  $4\frac{1}{4}$ " and edgestitch again (over top of previous edgestitching) along the  $4\frac{1}{4}$ " folded side edges.
